WOW!

What a wild year for our group. My first year of being an office holder has been full of unusual learning curves. Thank you all and especially Martha for helping me take my first baby steps.

Our Beeville chapter was so looking forward to hosting all of you on March 22, 2020 and extremely disappointed when that could not happen. Perhaps we will get another chance.

Several organizations of which I am a member have had to conduct various meetings just like we had to do the Scholarship meeting, by on line voting. Just so thankful this means of communication is available. A little hairy getting minutes put together, but with Martha's help got the job done. Thank you Martha.

I have one zoom meeting under my belt, which doesn't give me any insight into this one. Hope we can all meet and greet on line today to take care of our business. I will be taking minutes and hope to get those out next week.

I look forward to the time when we can get back to our "normal?" routine and fellowship together. Can't wait to give everyone a hug. Thank you for your patience with me. Hope you have all been safe and are staying safe.

"One for all and all for one" – "uno para todos y todos para uno"

Respectfully
